TRIAL PROCEDURE

There will be significant periods where you are not on court so you should rest and drink water. There are a minimum of 3 selectors rostered on for each trial with continuity of selectors for each age group throughout. All selectors are experienced Power / VNL coaches and are aware of the standards required. Coach reports of current Power players are provided to selectors prior to trials and taken into consideration. <p>Match Play:</p> <ul style="list-style-type: none"> The court runs are prepared before the trial and will be placed up on the board at the start of the session so that players can see when / where they are required to take the court. Each run is approx. 10 minutes and there is then a straight changeover to the next run so players must be aware and ready Each player will be placed on runs in their first and second nominated position. Some will have more runs than others because there may be less applicants for these positions. All will have a min of 2 runs. Selectors may choose to make changes at any time and may also advise that you trial in a specific position that they feel may optimise your chances of selection Each selector will have a copy of the runs and will individually score each player's performance. Selectors will collate this information after each trial and forward their lists to us so that we can notify you of their decisions (by email). <p>Court Work:</p> <ul style="list-style-type: none"> 13U and 15U trials will also include court work with stations set up with a variety of drills to assess skills and coachability.
