

FRESH FRUIT & VEGETABLE HOME DELIVERY

from our

BNA Saturday Netball Market

The VEGETABLE CONNECTION

(Josephine & the Miriklis family)

- ❖ Are you in self-isolation?
- ❖ Are you unwell?
- ❖ Are you concerned about purchasing fruit & vegetables which have been handled - and potentially contaminated - by unknown people in supermarkets?

Our produce is kept in cool rooms so there is no risk of multiple people touching it. We are doing it the old-fashioned way where people tell us what they want, we go to the cool room with gloves on and make the order up. Minimal contamination. This is a big warehouse so there is no problem with keeping your distance.
